

# Meet the Team

**Sister Gianna  
Marie Savidge**

*RSM, M.D.*

**Sarah  
Noble-Hogan**

*APRN, C.N.M.*

Marian Medical Clinic providers share the mission of providing compassionate and holistic care to women. Dr. Gianna Marie Savidge brings a wealth of experience and expertise in women's health and she is deeply committed to upholding the ethical and moral principles in her practice. Alongside Dr. Savidge, Sarah Noble-Hogan is a highly skilled advanced practice registered nurse with a nurturing and empathetic approach ensuring her patients receive the best medical care. Together, these two providers exemplify the Marian Medical Clinic's commitment to offering comprehensive healthcare services that respect the values and beliefs of our patients.

## Mission

To extend the presence and healing ministry of Christ in all we do

## Vision

Inspired to create a sustainable and just healthcare system, Saint Francis will be the technology-enabled health ministry that delivers integrated, market-leading, high-quality, affordable care through engaged caregivers to the people of eastern Oklahoma.

## Values

### EXCELLENCE

Promoting high standards of service and performance

### DIGNITY

Respecting each person as an inherently valuable member of the human community and as a unique expression of life

### JUSTICE

Advocating for systems and structures that are attuned to the needs of the vulnerable and disadvantaged and that promote a sense of community among all persons

### INTEGRITY

Encouraging honesty, consistency and predictability in all relationships

### STEWARDSHIP

Ensuring prudent use of talents and resources in a collaborative manner

The Marian Medical Clinic provides individualized health and wellness care including education on restorative reproductive health. Our method respects the normal rhythms and functions of a woman's body and utilizes cycle charting, laboratory testing, and imaging to diagnose and treat the underlying causes of women's health disorders and infertility.

*Medicaid, Medicare and private insurance are accepted.*

### ○ **Fertility Awareness Education**

We teach women to identify the fertile and infertile times of their cycle so they may understand their reproductive health and fertility.

We provide education, according to the needs and preferences of each woman, on a variety of fertility awareness methods including FEMM™, Creighton, and Marquette™.

### ○ **Menstrual Cycle Concerns**

We help women identify health problems such as polycystic ovarian syndrome (PCOS), endometriosis, abnormal uterine bleeding, painful periods, and premenstrual dysphoric disorder, that may first present with a menstrual cycle irregularity.

We seek to restore healthy ovulatory patterns by correcting underlying disorders, such as insulin resistance, hypothyroidism, hyperprolactinemia, and more.

### ○ **Well-Woman Exams**

We provide comprehensive well-woman exams from onset of menses through menopause.

### ○ **Perimenopause/Menopausal Management**

We work with each woman to create an individual treatment plan that involves symptom management to restore equilibrium. Some treatment possibilities include hormone replacement therapy (HRT), nutrition counseling, and lifestyle modifications to regain a sense of well-being.

### ○ **Insulin Resistance**

We identify the early signs of insulin resistance that, if not treated appropriately, can lead to type II diabetes, cardiovascular disease, obesity, and cognitive dysfunction. We utilize nutrition counseling, lifestyle modifications, and pharmaceuticals to help reverse the impact of this disease process.

### ○ **Infertility**

We understand the difficulties that accompany infertility and want to accompany you on this journey. We seek to understand your menstrual cycle in order to determine the underlying condition behind such things as recurrent miscarriage and unexplained infertility.
